

0365

A cloud-based, online backup and recovery service providing comprehensive data protection and recovery for Microsoft® Office 365™ applications, as well as for mission-critical collaboration tools in the Office 365 productivity suite, including Email, OneDrive and SharePoint

THE CHALLENGE

While Microsoft® Office 365™ provides a range of industry-leading applications and business collaboration tools, the data generated by them is not automatically or comprehensively protected, accessible and recoverable within the service provided by Microsoft.

THE SOLUTION

Office 365 helps companies maximise and protect their Microsoft® Office 365™ investments by providing a comprehensive platform that delivers the best in backup, recovery, archiving, search and discovery across on-premise and remote locations.

OFFICE 365:

- Comprehensive cover** – Data protection and recovery for Office 365 applications including Email, OneDrive and SharePoint
- Flexible solution** – No on-premise infrastructure commitments; create granular policies for what must be protected and retained
- Usability and accessibility** – Full visibility into how the backup and restore schedules are being performed, monitored and managed
- Cost-efficient** – Lower TCO by subscribing to an Office 365 plan that is most appropriate to operational needs
- End-to-end encryption** – Data encryption at source, in-transit and at rest
- Continuous data protection** – Backups run automatically according to pre-defined management policies
- Central console** – System administrators can track, manage and report on all backup and restore jobs through a central console
- Rapid recovery** – **Perform site**-level rollback to easily restore Office 365 data

WHAT WE'RE ABOUT

StorVault specialises in Cloud Storage, via a world-class data centre located in South Africa. We provide high performance, cost-effective, secure and reliable offsite, Cloud-based backup services through a nationwide network of fully-certified professional business partners and authorised resellers. Our current offerings include flexible Personal, Business and Microsoft 365 data backup and storage solutions
